1 Introduction

The University of Copenhagen conducts graduate surveys for all professional Bachelor’s, Academic Bachelor’s, Master’s Candidatus and Master’s degrees, as well as Diploma and Academy Profession (AP) programmes according to a shared concept of data collection developed across the faculties.

The graduate surveys gather information about what the graduates are doing after their graduation, and how conditions during their studies have been influential in their later employment situation. Among other things, the graduates assess to what degree the skills achieved from their education have been relevant and sought after in the jobs they get after completing their education. Moreover, the graduates evaluate whether their education has been structured to ensure that the study programme can be completed without delay, and whether there is anything in the programme that could be improved to better prepare them for the job market.

Education Services at the University of Copenhagen is responsible for the graduate survey itself. Rambøll handles the acquisition of data and prepares a report based on the data from the questionnaires. The reporting of the graduate survey takes place on three levels: university, faculty and educational programme. This report is for , where the questionnaire has been sent to graduates from the following programmes: Audiologopedics, Balkan Studies, Computer Science, Physics, Master Candidatus in Health, Religious Roots of Europe, Pharmaceutical Sciences, Pharmacy, Philosophy, Finnish, Acturial Mathematics, Language Education, Indonesian, Chemistry, Ancient Greek, Communication and It, Criminology, Latin, Matematics, Matematics-Economics, Musicology, Nanoscience, Dental Surgery, Polish Language and Culture, Public Health, History of Religions, Sociology of Religion, Religious Studies, Russian Language and Culture, Social Science, Phycology of Language, Statistics, Political Science, Dental Hygienist, Thai, German Studies, Visual Culture, Eastern European Studies.

Compared to previous reports in connection with the institution accreditation, the 2015 reports also include small, built-in analyses by cross-referencing information. The background for this is the fact that the results of the questionnaire had been adapted and reworked by the individual institutes. Therefore, Education Services has in collaboration with Rambøll worked on improving the report template so that the complete report can, as far as possible, cover the common needs that the institutions have.

The institution accreditation comprises an assessment of many educational programmes, all of which receive a report like this one. Therefore, it has been necessary to standardise the text so that it can be included generically in the reports for all types of educational programme. Throughout the report, there are guidance and notes on the individual sections and graphs. All faculties have received the complete data material for the faculty’s educational programmes, which are included in this graduate survey. Thus, this report provides an overview of the survey’s results, which can be further investigated by looking into the data.
2 Data

2.1 The graduate survey

After the completion of their education programme, all graduates from the University of Copenhagen were invited to take part in the graduate survey. The University of Copenhagen offers the following types of education programmes:

- Academic Bachelor’s degree
- Professional Bachelor’s degree
- Master’s Candidatus degree
- Master’s degree
- Diploma programmes
- Academy Profession (AP) programmes (from 2016)

From 2015 all the faculties at the University of Copenhagen will use the same questionnaire for the collection of data in connection with graduate surveys in order to provide the opportunity to compare the results across educational programmes and faculties.

2.2 Reporting

This report is based on the graduate survey questionnaire data collected from graduates during the period 27 October to 27 November 2015. The purpose of the report is to provide a summary of the data. The table shows a summary of the data from the graduate study with response rates, etc. from graduates.

2.2.1 Table: Summary of collected data

Appendix 1 shows a summary of the questions from the questionnaire used in this report.
## 2.3 Background data from the study administrative system STADS

The individual graduates in the survey have been linked to the variables from the study administrative system STADS described in Appendix 2. The Table shows how representative the data is for when the entire graduates who were asked to reply to the questionnaire were compared to the graduates who chose to participate by responding to the questionnaire based on the background variables.

Among the background variables, the following variables from STADS are considered significant when it comes to studying how representative the graduate survey is:

- Gender
- Average age at study start/average age at graduation
- Completion time of Bachelor’s and Master’s Candidatus studies
- Grades for thesis/Bachelor’s paper
- Graduates who are foreign citizens
- Quota 1/2

For future analyses of data from graduate surveys it can be relevant to examine, aside from being representative, whether the data can be biased. Respondents could, for example, be biased in the assessment of their education, if they are unsuccessful on the job market.

### 2.4 Reading guide

In order to make the report more readable and to live up to various ethical principles, this section explains in brief how the data is presented in this report. The report has been made for many educational programmes; in addition, there are joint reports on faculty level and for the University of Copenhagen as a whole. As described in the introduction, it has thus been necessary to work with a standardised report structure, partly on financial grounds, both in terms of the content of the tables, graphs and the text itself. The following text is thus intended to help the reader in reading the report.
For the , a report template has been used that comprises Professional Bachelor’s degrees, Academic Bachelor’s degrees and Master’s Candidatus degrees. For the University of Copenhagen as a whole, it makes sense to look at Master’s Candidatus and Professional Bachelor’s degrees in the same section, as these are programmes where the graduates complete their education at the university. The reader might though have a report for a specific education at hand that does not comprise a Professional Bachelor’s degree programme. At time of writing, the University of Copenhagen offers Professional Bachelor’s degrees in dentistry under the Faculty of Health and Medical Sciences and the Bachelor’s degree in Forest and Landscape Engineering at SCIENCE. The reader is therefore asked to consider that it has been necessary to standardise the text so that it also reads Professional Bachelor’s degree, even though this may not be relevant to the education written in the actual report.

The format of the report is also untraditional in the way that the tables and graphs are not numbered consecutively throughout the report. On the contrary, it was decided to let the numbering of the questions in the tables and graphs refer directly to the numbering of the questions in the questionnaire. The entire questionnaire is designed around the introductory question about the current job situation, which provides a good overview of the respondents included in this report. Depending on which answer the graduates give for their job status in Q.1.1 or Q.1.7, there will be a round of questions that the graduates have answered. A complete summary of the answers to the questions is shown in the following table:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Figures in this table can be included in the text in the individual sections. If there is a figure for candidates in this table, they could also be included in the following section on candidates, for example. The table here provides a complete summary of the types of figures included in this report.

For Q.1.1 in the table, the respondents have just one possible answer. If a respondent has a part-time job with supplementary benefit, the respondent should select the category, “I am in work”. In some cases, the individual questions in the questionnaire have just one possible answer; in other cases, multiple answers are permitted. With a single answer option, a percentage breakdown of the respondents according to answer will add up to 100 per cent as in a relative breakdown, and otherwise the sum of the percentages will be higher than 100 per cent. The graphs in the report thus provide a clear indication of whether there is a single answer option or multiple answers.

In general, the total "n" for the graphs and tables, as well as what it covers, is made clear in the text. In some situations, “n” is the total number of respondents in the graduate study while in other situations, “n” can be conditional on the respondents who are in work, for example. Based on the graph it is then possible to estimate how many respondents there are in the individual categories.
The graduate survey invites all graduates in a given population to answer the questionnaire, where the response rate can be small. The collected data does not therefore represent a complete survey, but rather a random sample. To ensure anonymity, when the number of respondents is small, the results on the following questions:

- What is your monthly salary?
- Do you supplement the income earned from your primary occupation?
- Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status?
- Why do you think you do not have a job at the moment?

are only shown if at least three respondents have answered that question. Be aware that too few respondents can increase the statistical uncertainty significantly, and the percentage indications can fluctuate a lot if one respondent is added or removed.
3 Current job situation of Master’s Candidatus/Professional Bachelor’s graduates

This chapter describes the job situation of Master’s Candidatus/Professional Bachelor’s graduates in their current position. The chapter includes sections on whether the graduates are in work, self-employed, unemployed or in full-time education.

3.1 Employed Master’s Candidatus/Professional Bachelor’s graduates

Employed Masters Candidatus/Professional Bachelors covers graduates in work, self-employed, unemployed or in full-time education.

3.1.1 Q.1.1. What is your current job situation?

The figure for question Q.1.1. shows the Master’s Candidatus/Professional Bachelor’s graduates’ current job situation, where the response categories show if they are in work, self-employed, unemployed, in full-time education, or on a Ph.d programme.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.

<table>
<thead>
<tr>
<th>Job Situation</th>
<th>Number of replies</th>
</tr>
</thead>
<tbody>
<tr>
<td>I am employed (including leave of absence, maternity leave, job with wage subsidies, part-time hiring...)</td>
<td>1,058</td>
</tr>
<tr>
<td>I am self-employed (including freelance)</td>
<td>27</td>
</tr>
<tr>
<td>I am unemployed (including on maternity leave without being under contract of employment)</td>
<td>75</td>
</tr>
<tr>
<td>I am in full-time education (e.g. Candidatus programme)</td>
<td>11</td>
</tr>
<tr>
<td>I am on a Ph.D programme</td>
<td>168</td>
</tr>
<tr>
<td>Other</td>
<td>32</td>
</tr>
</tbody>
</table>

3.1.2 Q.1.3. What are the conditions of employment in your current job?

The figure for question Q.1.3. shows the conditions of employment for the Masters Candidatus/Professional Bachelors in work, where the response categories show if they are hired on a fixed-term contract, hired on a project/temporary contract, hired as a substitute, or employed with wage subsidy.

The actual number of respondents is shown to the right of the figure.

The distribution is shown as a percentage, and the number of responses is shown to the right of the figure.

Only one response category is possible.
- Fixed-term contract: 82% (869 replies)
- Hired on project basis/temporary contract: 10% (108 replies)
- Hired as substitute: 7% (71 replies)
- Employed with wage subsidy: 1% (7 replies)
3.1.3 Q.1.2. How many jobs have you had (since completing your studies), before you started in your current employment?

Figure Q.1.2. shows the number of Master’s Candidatus/Professional Bachelor’s graduates in employment have had before starting their current job.

There is only one response category, given the fact that they have had zero, one, two, three, four or more jobs.

The total number of respondents is shown to the right of the figure.

1.2 How many jobs have you had (since completing your studies), before you started in your current employment?

<table>

</tr>
</tbody>
</table>

3.1.4 Q.1.8. Within which sector is your place of work?

The figure for question Q.1.8. shows which sectors the Masters Candidatus/Professional Bachelors are employed in. The response categories show if they are employed in the private sector, the state, a region or a non-governmental organisation/interest organisation.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.

<table>

### 3.1.5 Q.1.9./Q.1.8. Which industry does your place of work belong to? by sector

The table for question Q.1.9. shows which industry the Masters Candidatus/Professional Bachelors are employed in. For each industry, the table shows the distribution of the Masters Candidatus/Professional Bachelors among the various sectors in question Q.1.8.

The column to the right of the table shows the total number of respondents within each industry and the next-to-last column shows the percentage of respondents within each industry.

3.1.11 Q.1.17./Q.1.11. How many employees are you in charge of? by monthly salary
The figure for question Q.1.17. shows how many employees the Masters Candidatus/Professional Bachelors are in charge of within each of the salary brackets. The response categories show if the number of employees they are in charge of is either 1-5, 6-10, 11-25, 26-50, 51-100 or more than 100 employees. The results are shown for each of the salary brackets within which the graduates are in charge of employees.

The distribution is shown in percentages and sums up to 100 within each salary bracket.

The total number of respondents is shown to the right of the figure.
3.1.12 Q.1.18. Breakdown of your job functions. Top 10 over how much time the respondent spends on these job functions

The figure for question Q.1.18. shows which job functions the respondents spend time on as well as how much time they spend on the specific categories.

Below is shown the ten job functions the Masters Candidatus/Professional Bachelors spend the most time on.

The figure shows an average on a scale from 1 to 4, where 1 corresponds to 'Not at all', 2 corresponds to 'Occasionally', 3 corresponds to 'Sometimes' and 4 corresponds to 'A lot of the time'. From this scale the average time consumption is shown for each specific bar.

Note: The response distribution on the specific questions is shown in appendix 6.
3.1.13 Q.1.19. How did you find your current job?
The figure for question Q.1.19. shows how the Masters Candidatus/Professional Bachelors found their current job.

The figure shows the percentage of Masters Candidatus/Professional Bachelors that have chosen the specific category. The categories do not sum to 100, as it was possible for the respondents to check more than one option.

3.2.4 Q.1.29. How many people are employed in your company, besides yourself?

The figure for question Q.1.29. shows how many employees the Masters Candidatus/Professional Bachelors have in their businesses.

The distribution is shown in percentages and sums up to 100, as there is only one response category available for selection.

The total number of respondents is shown to the right of the figure.
3.3 Unemployed, including maternity leave without being under employment contract

This section describes the job situation for the Master’s Candidatus graduates who answered the introductory Q.1.1 with “unemployed”.

3.3.1 Q.1.32. After completing your studies, have you had one or more jobs (including leave of absence, maternity leave, job with wage subsidies, part-time employment, or similar)?

The figure for question Q.1.32. shows how many of the unemployed Masters Candidatus/Professional Bachelors have had one or several jobs since finishing their studies. They can choose between yes or no.

The distribution is shown as a percentage of each response category and sums up to 100 as it is only possible for the respondents to choose one response category.

The total number of respondents for yes and no, respectively, is shown to the right of the figure.

3.3.5 Q.1.36. Why do you think you do not have a job at the moment?

The figure for question Q.1.36. shows in order of priority, why the Masters Candidatus/Professional Bachelors think they are unemployed at the moment.

The figure shows what percentages of Masters Candidatus/Professional Bachelors have chosen the specific category. The categories do not sum up to 100, as more response categories are available for selection.

- There is great competition for the jobs I apply for: 65.3%
- I lack professional experience: 49.3%
- My education has not provided me with the sought-after skills: 26.7%
- Other, please state: 24.0%
- No jobs have been advertised within my area of academic expertise: 24.0%
- Pregnancy/maternity leave or a lack of childcare options: 18.7%
- I am not good enough at writing applications or attending interviews: 14.7%
- I do not want to move geographically because of work: 8.0%
- There have been no jobs that I have been interested in applying for: 5.3%
3.4 Full-time education

This section describes the job situation for the Master’s Candidatus/Professional Bachelor’s graduates who answered introductory Q.1.1 by saying they had begun a full-time programme of education after graduation.

This can include several types of full-time education, depending on which actual course programme the report concerns. If they have graduated from a Bachelor’s degree programme, there will be many who continue their studies at Master’s Candidatus degree level. For Master’s Candidatus graduates, there will be some who will continue on a PhD programme or teacher training.

3.4.1 Q.1.39./Q.1.40. What education institution are you registered with?

The table for question Q.1.39./Q.1.40. shows which education institutions the Masters Candidatus/Professional Bachelors in a full-time education are registered with.

The table shows the percentage within each specific education.

The total number of respondents for each education is shown in the bottom row.

3.4.2 Q.1.42. How would you describe the correlation between your previous programme of study and your Ph.D?

The figure for question Q.1.42. shows how the Masters Candidatus/Professional Bachelors registered on a PhD programme assess the correlation between their previous programme of study and their PhD.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.
Correlation between Master’s Candidatus/Professional Bachelor’s education programmes and the job market

A main element in the educational programmes offered by the faculty is that they prepare the graduates as well as possible for the job market by giving them the skills that are sought after by employers. The graduate surveys of the University of Copenhagen can thus gather information on the graduates’ assessment of how much the educational programmes have prepared them for the job market. The question is whether the Master’s Candidatus/Professional Bachelor’s graduates experience that there is agreement between the skills they are expected to possess on the job market and the skills they have acquired during their education at the University of Copenhagen.

4.1 Academic correlation between studies and job

4.1.1 Q.1.12./Q.1.13. How would you describe the correlation between your area of study and your job?

The figure for question Q.1.12./Q.1.13. shows how the Masters Candidatus/Professional Bachelors assess the correlation between their education and their job.

The distribution is shown as a percentage.

The total number of respondents is shown to the right of the figure.

4.2 The ability of the study programme to prepare the graduates for working life

4.2.1 Q.2.1. To what degree do you feel that your programme of study has adequately prepared you for your working life?

The figure for question Q.2.1. shows to what degree the Masters Candidatus/Professional Bachelors feel that their programme of study adequately has prepared them for their working life. The response categories show either to a high degree, to some degree, to a lesser degree or not at all.

The distribution is shown as a percentage.

The total number of respondents for each degree is shown to the right of the figure.

4.2.2 Q.2.4. How do you think the University of Copenhagen could improve upon how it prepares graduates for the demands of the labour market?

The figure for question Q.2.4. shows in order of priority, what areas the Masters Candidatus/Professional Bachelors think the university could improve upon to prepare the graduates for the demands of the labour market.

The figure shows what percentage of the Masters Candidatus/Professional Bachelors that have chosen the specific category.

The categories do not sum up to 100 as several categories are available for selection.
More/better opportunities for work experience, project-oriented courses or project partnerships with private ... 70.8%
Solving tasks in collaboration with both private and public businesses/organisations 58.0%
More actual case studies within the programme 47.1%
More choice of courses that are aimed directly at private as well as public companies/organisations 40.3%
More practical assignments and courses (e.g. languages, supplementary tools, communication...) 38.3%
A higher degree of interdisciplinary studies within the course programme 35.9%
More guest lecturers and teachers from both private and public businesses/organisations 34.9%
Better guidance regarding the needs of both private and public businesses/organisations 34.8%
Business-oriented teaching (e.g. basic business knowledge) 33.4%
More methodology/supplementary courses 31.6%
More/better study and career advice 25.8%
More/better opportunities for study abroad 25.4%
More business/company-based presentations at the university 19.2%
More/better career fairs at the university 14.4%
Other 13.3%
More theory within the course programme 7.8%
4.2.3 Q.2.2./Q.2.3. Correlation between acquired skills and skills sought after on the labour market

The figure shows the labour market demanded skills from question Q.2.3. out the x-axis and acquired skills from question Q.2.2. up the y-axis.

The numbers on the bars for the specific skills in the figure shows the average in the degree the respondents have answered to have acquired the following skills through their education measured on a scale from 1 to 4, where 1 is 'Not at all', 2 is 'to a lesser degree', 3 is 'to some degree' and 4 is 'to a high degree'.

**4.2.3.1 Top 5 skills**

Figure 1 for question Q.2.2. shows the 5 skills the Masters Candidatus/Professional Bachelors feel they have acquired to the highest degree through their programme of study and that they think the labour market to the highest degree demands. The responses for each skill are displayed with a bar.

<table>

**4.2.3.2 Bottom 5 skills**

Figure 2 for question Q.2.2. shows the 5 skills the Masters Candidatus/Professional Bachelors feel they have acquired to the least degree through their programme of study and that they think the labour market to the highest degree demands. The responses for each skill are shown with a bar.
General business understanding
The ability to collaborate with a variety of professional groups
Combine expert knowledge with knowledge about finance, management and organisation
IT skills
The ability to manage complex working and development situations
5 Master’s Candidatus/Professional Bachelor’s graduates routes to their first job

This section deals with the Master’s Candidatus/Professional Bachelor’s graduates’ first job. There are several interesting questions in this regard, such as: How long did it take them to get a job? When did they start actively looking for jobs? What factors are relevant to getting a job as a recent graduate?

5.1 Master’s Candidatus/Professional Bachelor’s graduates first job

5.1.1 Q.3.1. How long time did you have to wait between graduating and obtaining your first job (incl. job with wage subsidies)?

The table for question Q.3.1. shows how long time the Masters Candidatus/Professional Bachelors had to wait to obtain their first job.

The table shows the percentages of each time interval.

<table>
<thead>
<tr>

5.1.3 Q.3.1. How long time did you have to wait between graduating and obtaining your first job (incl. job with wage subsidies)? by Q.3.19 When did you start actively looking for a job?

The figure for question Q.3.1. distributed on Q.3.19. shows the average scores on Q.3.1. for the Masters Candidatus/Professional Bachelors, distributed on response categories of when they actively started looking for a job.

The average is calculated on a scale from 1 to 5 where
- 1 corresponds to 'I got the job before completing my studies',
- 2 corresponds to '0 - 3 months',
- 3 corresponds to '4 – 6 months',
- 4 corresponds to '7 - 12 months' and
- 5 corresponds to 'More than 12 months'.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.

8 Bachelor's/Professional Bachelor's assessment of the study programme

8.1 The level of teaching in relation to the entry requirements

8.1.1 Q.4.1. To what degree is it your assessment that the teaching on your Bachelor/professional Bachelor programme was organised at a suitable level in relation to the entry requirements?

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

8.1.2 Q.4.7. To what degree do you feel that all the elements of the Bachelor/professional Bachelor programme have contributed to the collective goals of the teaching offer?

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

The figure for question Q.4.1. shows to what degree the Bachelors/Professional Bachelors assess that the teaching on their programme of study was organised at a suitable level in relation to the entry requirements.

The figure for question Q.4.7. shows to what degree the Bachelors/Professional Bachelors assess that the elements of the Bachelor/professional Bachelor programme have contributed to the collective goals of the teaching.
8.2 Specifics about the bachelor programme

The figure for questions Q.4.2., Q.4.3., Q.4.6., Q.4.4., Q.4.5. shows how the Bachelors/Professional Bachelors assess different conditions in their programme of study.

The distribution is shown as a percentage.

The total number of respondents for each question is shown to the right of the figure.

8.3 The graduates assessment of the opportunities for study abroad, internship etc. without extensions

8.3.1 Q.4.8. To what degree was your Bachelor/professional Bachelor programme organised so that you had the opportunities for (see following) without having to extend the length of your studies?

The figure for question Q.4.8. shows how the Bachelors/Professional Bachelors assess that their programme of study was organized so that they had the possibility of studying abroad, specialisation, choosing elective subjects, getting work experience, receiving guidance from teachers, and having collaboration with businesses without having to extend the length of their studies.

The distribution is shown as a percentage.

The total number of respondents for each question is shown to the right of the figure.

9 Bachelors' current job situation
This chapter describes the job situation of Bachelor’s graduates in their current position.

9.1 Employed bachelors
Employed bachelors, covers graduates in work, self-employed, unemployed or in full-time education.

9.1.1 Q.1.12. How would you describe the correlation between your area of study and your job?
The figure for question Q.1.12. shows how the Bachelors assess the correlation between their area of study and their job.
The distribution is shown as a percentage.
The total number of respondents is shown to the right of the figure.

9.1.2 Q.1.8. Within which sector is your place of work?
The figure for question Q.1.8. shows within what sectors the Bachelors are employed where the response categories show if they are employed in the private sector, in the state, in a region, in a municipality, or in a non-governmental organisation/interest organisation.
The actual number of respondents for each response category is shown to the right of the figure.
Only one response category is possible.
### 9.1.3 Q.1.8./Q.1.9. Which industry does your place of work belong to? by sector

The table for question Q.1.9. shows what industry the Bachelors are employed in. For each industry, the table additionally shows how the Bachelors are distributed on the specific sectors from question Q.1.8.

To the right of the table is a total-column with the total percentage of respondents within the specific industries.

9.2 Self-employed (including freelance)

This section describes the job situation for the Bachelor’s graduates who answered that they have chosen to become self-employed or work freelance in the introductory question Q.1.1.

50% started business alone, while 43% started business in collaboration with one or more partners.

0 graduates have received financial support or advice to start up their business, corresponding to 0% of the self-employed graduates.

120 graduates supplement their income earned from their primary occupation, 0% receives unemployment benefit or social assistance benefits, while 33% have other paid work.

9.2.1 Q.1.23. What made you decide to become self-employed/freelance?

The figure for question Q.1.23. shows in order of priority why the Bachelors chose to start up as self-employed/freelance.

The categories do not sum up to 100 as more categories were available for selection.

- Better opportunities to organise my own working hours: 85.7%
- Realisation of ambitions/dreams: 64.3%
- More/other professional and personal challenges: 50.0%
- I had a good idea for a new product/service: 42.9%
- Desire to be my own boss: 42.9%
- View to greater level of responsibility: 35.7%
- It was a condition for working within my professional sector: 28.6%
- Expectations of a high income: 21.4%
- I have been unable to find employment: 7.1%
- Other, please state: 7.1%
9.2.2 Q.1.26. How would you describe the correlation between your studies and your own business?

The figure for question Q.1.26. shows how the Bachelors assess the correlation between their studies and their business.

It is only possible for them to choose one of the categories.

The distribution is shown in percentages and sums up to 100.

The total number of respondents for each response category is shown to the right of the figure.

- The business is a direct extension of my bachelor studies: 27% (3 replies)
- The business is within the traditional area of my course programme, but not a direct extension of my bachelor studies: 64% (7 replies)
- Running the business requires general skills obtained from my course programme, but is outside ...: 9% (1 reply)
- There is no connection between my area of study and my current business: 0% (0 replies)
9.2.3 Q.1.28. How did you get the idea for your business?

The figure for question Q.1.28. shows how the Bachelors got the idea for their business. More options were available.

The figure shows the percentage of the Bachelors that have chosen the specific category. The categories do not sum up to 100, as more categories were available for selection.

The total number of respondents for each response category is shown to the right of the figure.

9.3 Unemployed, including maternity leave without being under employment contract

This section describes the job situation for the Bachelor’s graduates who answered the introductory Q.1.1 with “unemployed”.

9.3.1 Q.1.32. After completing your studies, have you had one or more job (including leave of absence, maternity leave, job with wage subsidies, part-time employment, or similar)?

The figure for question Q.1.32. shows how many of the unemployed Bachelors have had one or several jobs since finishing their studies. They can choose between yes or no.

The total number of respondents for yes and no, respectively, is shown to the right of the figure.

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>

</tr>
</tbody>
</table>
9.3.3 **Q.1.35 Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status?**

The figure for question Q.1.35. shows the distribution among unemployed Bachelors that receive and do not receive unemployment benefit or social assistance benefits in connection with their unemployed status.

The distribution is shown as a percentage.

The total number of respondents is shown to the right of the figure.

![Bar chart showing the distribution of respondents receiving unemployment benefit or social assistance benefits.](image)

9.3.4 **Q.1.34./Q.1.35. Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status? by unemployment period**

The figure for question Q.1.34./Q.1.35. shows the distribution of unemployed Bachelors who either receive or do not receive unemployment benefit/social assistance benefits, by unemployment periods.

The distribution is shown in percentages and sums up to 100 within the specific periods of unemployment.

The total number of respondents for each unemployment period is shown to the right of the figure.

![Bar chart showing the distribution of respondents by unemployment period.](image)
9.3.5 Q.1.36. Why do you think you do not have a job at the moment?
The figure for question Q.1.36. shows in order of priority, why the Bachelors think they are unemployed at the moment.

The figure shows the percentage of Bachelors that has chosen the specific category. The categories do not sum up to 100, as more response categories are available for selection.

- I lack professional experience: 51.2%
- There is great competition for the jobs I apply for: 47.6%
- No jobs have been advertised within my area of academic expertise: 15.9%
- I am not good enough at writing applications or attending interviews: 11.0%
- There have been no jobs that I have been interested in applying for: 9.8%
- My education has not provided me with the sought-after skills: 8.5%
- I do not want to move geographically because of work: 7.3%
- Pregnancy/maternity leave or a lack of childcare options: 3.7%

The categories do not sum up to 100, as more response categories are available for selection.
9.4 Full-time education
This section describes the job situation for the Bachelor’s graduates who answered introductory Q.1.1 by saying they had begun a full-time programme of education after graduation.

This can include several types of full-time education, depending on which actual course programme the report concerns. If they have graduated from a Bachelor’s degree programme, there will be many who continue their studies at Master’s Candidatus degree level. For Master’s Candidatus graduates, there will be some who will continue on a PhD programme or teacher training.

9.4.1 Q.1.39./Q.1.40. What education institution are you registered with?
The table for question Q.1.39./Q.1.40. shows what education institutions the Bachelors in a full-time education are registered with.

The table shows the percentage within each specific education.

The total number of respondents for each education is shown in the bottom row.

10 Current job situation after Masters and Diploma programme

This chapter describes the job situation of Master's/Diploma graduates in their current position. The chapter includes sections on whether the graduates are in work, self-employed, unemployed or in full-time education.

10.1 Employed Masters/Diploma graduates

Employed masters/diploma graduates covers graduates in work, self-employed, unemployed or in full-time education.

10.1.1 Q.1.7 What is your current job situation?

The figure for question Q.1.7. shows the Masters/Diploma graduates' current job situation, where the response categories show if they are in work, self-employed, unemployed, in full-time education, or on a Ph.d programme.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.

![Job Situation Figure]

10.1.2 Q.1.9. What are the conditions of employment in your current job?

The figure for question Q.1.9. shows the conditions of employment for the Masters/Diploma graduates in work, where the response categories show if they have a fixed-term contract, a hired on a project basis/temporary contract, hired as a substitute, or employed with wage subsidy.

The actual number of respondents is shown to the right of the figure.

The distribution is shown as a percentage, and the number of responses is show to the right of the figure.

Only one response category is possible.
Types of employment contracts:

- Fixed-term contract: 91% (32 replies)
- Hired on project basis/temporary contract: 9% (3 replies)
- Hired as substitute: 0%
- Employed with wage subsidy: 0%
- Don't know/Would prefer not to say: 0%
10.1.3 Q.1.8. How many jobs have you had (since completing your studies), before you started in your current employment?

Figure Q.1.8. shows the number of jobs Master/Diploma graduates in employment have had before starting their current job.

There is only one response category, given the fact that they have had zero, one, two, three, four or more jobs.

The total number of respondents is shown to the right of the figure.

10.1.4 Q.1.14. Within which sector is your place of work?

The figure for question Q.1.14. shows which sectors the Master/Diploma graduates are employed in. The response categories show if they are employed in the private sector, the state, a region or a non-governmental organisation/interest organisation.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.
10.1.5 Q.1.14./Q.1.15. Which industry does your place of work belong to? by sector

The table for question Q.1.15. shows what industry the Master/Diploma graduates are employed in.

For each industry the table shows the distribution of the Master/Diploma graduates among the various sectors in question Q.1.14.

To the right of the table is a total-column with the total percentages within the various industries.

</table>
10.1.9 Q.1.18./Q.1.20. Are you in charge of other employees? by monthly salary
The figure for question Q.1.20. crossed with question Q.1.18. shows the distribution of Master/Diploma graduates that are/aren't in charge of employees within the specific levels of salary.

Results are only displayed for the relevant levels of salary.

The distribution is shown in percentages and sums up to 100 within each level of salary.

The total number of respondents for each level of salary is shown to the right of the figure.

10.1.10 Q.1.18./Q.1.21. How many employees are you in charge of? by monthly salary
The figure for question Q.1.21. shows how many employees the Master/Diploma graduates are in charge of within the specific levels of salary. The response categories show if the number of employees they are in charge of is either 1-5, 6-10, 11-25, 26-50, 51-100 or more than 100 employees. The results are shown for the levels of salary within which the graduates are in charge of employees.

The distribution is shown in percentages and sums up to 100 within the specific levels of salary.

The total number of respondents is shown to the right of the figure.
10.1.11 Q.1.22.1. Breakdown of your job functions. Top 10 over how much time the respondent spends on these job functions

The figure for question Q.1.22.1. shows which job functions the respondents spend time on as well as how much time they spend on the specific categories.

Below is shown the ten job functions the Master/Diploma graduates spend the most time on.

The figure shows an average on a scale from 1 to 4, where 1 corresponds to 'Not at all', 2 corresponds to 'Occasionally', 3 corresponds to 'Sometimes' and 4 corresponds to 'A lot of the time'. From this scale the average time consumption is shown for the specific bar.

![Job Functions Chart]

10.2 Unemployed, including maternity leave without being under employment contract

10.2.1 Q.1.33. After completing your studies, have you had one or more job (including leave of absence, maternity leave, job with wage subsidies, part-time employment, or similar)?

The figure for question Q.1.33. shows how many of the unemployed Master/Diploma graduates have had one or several jobs since finishing their studies. They can choose between yes or no.

The distribution is shown as a percentage of each response category and sums up to 100 as it is only possible for the respondents to choose one response category.

The total number of respondents for yes and no, respectively, is shown to the right of the figure.
Yes
No

10.2.2 Q.1.35. How long have you been unemployed (current period of unemployment)?

The figure for question Q.1.35. shows for how long the Master/Diploma graduates have been unemployed in their current unemployment period, the response categories showing either less than 6 months, 7-12 months, and 12 months or more.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

- Less than 6 months: 0
- 7 - 12 months: 0
- 12 months or more: 1

Number of replies: 78
10.3 Full-time education

10.3.1 Q.1.39./Q.1.40./Q.1.41. What education institution are you registered with?
The table for question Q.1.39./Q.1.40. shows what education institutions the Master/Diploma graduates in a full-time education are registered with.

The table shows the percentage within each specific education.

The total number of respondents for each education is shown on the far right.

<table>

</table>

10.3.2 Q.1.43. How would you describe the correlation between your previous programme of study and your Ph.D?
The figure for question Q.1.43. shows how the Master/Diploma graduates registered on a PhD programme assess the correlation between their previous programme of study and their PhD.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

- The Ph.D is a direct extension of my Master’s thesis: 0%
- The Ph.D is within the traditional area of my previous programme of study, but not a direct extension of...: 0%
- The Ph.D requires general skills obtained from my previous programme of study, but is outsi...: 100%
- There is no connection between my previous programme of study and my Ph.D: 0%
11 Correlation between Master’s/Diploma education programmes and the job market

One central element in the educational programmes offered by the faculty is that they prepare the graduates as well as possible for the job market by giving them the skills that are sought after by employers. The graduate surveys of the University of Copenhagen can thus gather information on the graduates’ assessment of how much the educational programmes have prepared them for the job market. The question is whether the graduates experience that there is agreement between the skills they are expected to possess on the job market and the skills they have been provided with during their education at the University of Copenhagen.

11.1 Academic correlation between studies and job

11.1.1 Q.1.19. How would you describe the correlation between your area of study and your job?

The figure for question Q.1.19. shows how the Master's/Diploma graduates assess the correlation between their education and their job.

The distribution is shown as a percentage.

The total number of respondents is shown to the right of the figure.

<table>
<thead>

11.2 The ability of the study programme to prepare the graduates for working life

11.2.1 Q.2.4. To what degree do you feel that your programme of study has adequately prepared you for your working life?

The figure for question Q.2.4. shows to what degree the Master's/Diploma graduates feel that their programme of study adequately has prepared them for their working life. The response categories show either to a high degree, to some degree, to a lesser degree or not at all.

The distribution is shown as a percentage.

The total number of respondents for each degree is shown to the right of the figure.
To a high degree: 70% (26 replies)
To some degree: 27% (10 replies)
To a lesser degree: 3% (1 reply)
Not at all: 0% (0 replies)
11.2.2 Q.2.6. To what degree do the Master's/Diploma graduates use the skills learned in their education in their current job

The figure for question Q.2.6 shows the 10 skills Master's/Diploma graduates think that they use in the highest degree in their current job.

The figure shows an average on a scale from 1 to 4, where 1 corresponds to 'Not at all', 2 corresponds to 'Occasionally', 3 corresponds to 'Sometimes' and 4 corresponds to 'A lot of the time'. From this scale the average time consumption is shown for the specific bar.

![Bar chart showing skills and their degrees of usage](chart.png)

The ability to work in a project-oriented manner
The ability to communicate in writing

11.2.3 Q.2.7. How do you feel that the University of Copenhagen could improve the educational programme in question in terms of the needs of the labour market?

The figure for question Q.2.7. shows in order of priority, what areas the Master's/Diploma graduates think the university could improve upon to prepare the graduates for the demands of the labour market.

The figure shows what percentage of the graduates that have chosen the specific category.

The categories don't sum up to 100 as several categories are available for selection.
Solving tasks in collaboration with both private and public businesses/organisations: 41.0%

Better guidance regarding the needs of both private and public businesses/organisations: 28.2%

Other: 23.1%

More practical-oriented assignments and courses (e.g. integration of student’s work tasks from the...): 20.5%

More guest lecturers and teachers from both private and public businesses/organisations: 20.5%
12 Master's/Diploma graduates' assessment of the program

12.1 The level of teaching in relation to the entry requirements

12.1.1 Q.3.1. To what degree is it your assessment that the teaching on your study programme was organised at a suitable level in relation to the entry requirements?

The figure for question Q.3.1. shows to what degree the Master's/Diploma graduates assess that the teaching on their programme was organised at a suitable level in relation to the entry requirements.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

<table>
