Hvilken underbranche tilhører din arbejdsplads?

Du har svaret "andet". Angiv venligst hvilken branche, der bedst kendetegner din beskæftigelse.

Hvis der er andre relevante faglige kompetencer, som kandidatuddannelsen i lægemiddelvidenskab ikke i tilstrækkelig grad giver de studerende, så må du meget gerne skrive dem her:

- Business
- Data Management using Excel/ Access, Organisational understanding, Interview skills, Personality
- Jeg mener at uddannelsen generelt bør lægge meget mere vægt på at uddanne de studerende inden for de kompetencer, der rent faktisk bliver efterspurgt i industrien. Særligt QA, regulatory affairs, pharmacovigilance, GMP osv.
- N/A
- Project Management
- Project communication to non-scientific audience
- Project management
Time management
Prioritization of tasks
Multi cultural working ethics
- Project management skills and work in busy and stressed environment. Time management. Real world information about business.
- Scientific writing
- What I understood, Getting Job without Network is not easy..
Before my current Job, I applied for several Jobs.
Imagine, I was not invited even for (First call Screen Interview)!
I was really disappointed.

(I know I am from middle-east but it does not mean that I am not qualified.
Most of the companies , they write at the bottom of the Job description that they donot care about ; Nationality,

gender, religion, skin type....
But I would say, I don't think so!
