1 Introduction
The University of Copenhagen conducts graduate surveys for all professional Bachelor’s, Academic Bachelor’s, Master’s Candidatus and Master’s degrees, as well as Diploma and Academy Profession (AP) programmes according to a shared concept of data collection developed across the faculties.

The graduate surveys gather information about what the graduates are doing after their graduation, and how conditions during their studies have been influential in their later employment situation. Among other things, the graduates assess to what degree the skills achieved from their education have been relevant and sought after in the jobs they get after completing their education. Moreover, the graduates evaluate whether their education has been structured to ensure that the study programme can be completed without delay, and whether there is anything in the programme that could be improved to better prepare them for the job market.

Education Services at the University of Copenhagen is responsible for the graduate survey itself. Rambøll handles the acquisition of data and prepares a report based on the data from the questionnaires. The reporting of the graduate survey takes place on three levels: university, faculty and educational programme. This report is for Clinical Nutrition.

Compared to previous reports in connection with the institution accreditation, the 2019 reports also include small, built-in analyses by cross-referencing information. The background for this is the fact that the results of the questionnaire had been adapted and reworked by the individual institutes. Therefore, Education Services has in collaboration with Rambøll worked on improving the report template so that the complete report can, as far as possible, cover the common needs that the institutions have.

The institution accreditation comprises an assessment of many educational programmes, all of which receive a report like this one. Therefore, it has been necessary to standardise the text so that it can be included generically in the reports for all types of educational programme. Throughout the report, there are guidance and notes on the individual sections and graphs. All faculties have received the complete data material for the faculty’s educational programmes, which are included in this graduate survey. Thus, this report provides an overview of the survey’s results, which can be further investigated by looking into the data.
2 Data
After the completion of their education programme, all graduates from the University of Copenhagen were invited to take part in the graduate survey. The University of Copenhagen offers the following types of education programmes:

- Academic Bachelor’s degree
- Professional Bachelor’s degree
- Master’s Candidatus degree
- Master’s degree
- Diploma programmes
- Academy Profession (AP) programmes

From 2015 all the faculties at the University of Copenhagen will use the same questionnaire for the collection of data in connection with graduate surveys in order to provide the opportunity to compare the results across educational programmes and faculties.

For future analyses of data from graduate surveys it can be relevant to examine, aside from being representative, whether the data can be biased. Respondents could, for example, be biased in the assessment of their education, if they are unsuccessful on the job market.

2.3 Reading guide

In order to make the report more readable and to live up to various ethical principles, this section explains in brief how the data is presented in this report. The report has been made for many educational programmes; in addition, there are joint reports on faculty level and for the University of Copenhagen as a whole. As described in the introduction, it has thus been necessary to work with a standardised report structure, partly on financial grounds, both in terms of the content of the tables, graphs and the text itself. The following text is thus intended to help the reader in reading the report.

For the Clinical Nutrition educational programme, a report template has been used that comprises Professional Bachelor’s degrees, Academic Bachelor’s degrees and Master’s Candidatus degrees. For the University of Copenhagen as a whole, it makes sense to look at Master’s Candidatus and Professional Bachelor’s degrees in the same section, as these are programmes where the graduates complete their education at the university. The reader might though have a report for a specific education at hand that does not comprise a Professional Bachelor’s degree programme. At time of writing, the University of Copenhagen offers Professional Bachelor’s degrees in dentistry under the Faculty of Health. The reader is therefore asked to consider that it has been necessary to standardise the text so that it also reads Professional Bachelor’s degree, even though this may not be relevant to the education written in the actual report.

2.3.1 Q.1.1. What is your current job situation?
<table>
<thead>
<tr>

</tbody>
</table>

Figures in this table can be included in the text in the individual sections. If there is a figure for candidates in this table, they could also be included in the following section on candidates, for example. The table here provides a complete summary of the types of figures included in this report.

For Q.1.1 in the table, the respondents have just one possible answer. If a respondent has a part-time job with supplementary benefit, the respondent should select the category, "I am in work". In some cases, the individual questions in the questionnaire have just one possible answer; in other cases, multiple answers are permitted. With a single answer option, a percentage breakdown of the respondents according to answer will add up to 100 per cent as in a relative breakdown, and otherwise the sum of the percentages will be higher than 100 per cent. The graphs in the report thus provide a clear indication of whether there is a single answer option or multiple answers.

In general, the total "n" for the graphs and tables, as well as what it covers, is made clear in the text. In some situations, "n" is the total number of respondents in the graduate study while in other situations, "n" can be conditional on the respondents who are in work, for example. Based on the graph it is then possible to estimate how many respondents there are in the individual categories.
The graduate survey invites all graduates in a given population to answer the questionnaire, where the response rate can be small. The collected data does not therefore represent a complete survey, but rather a random sample. To ensure anonymity, when the number of respondents is small, the results on the following questions:

- What is your monthly salary?
- Do you supplement the income earned from your primary occupation?
- Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status?
- Why do you think you do not have a job at the moment?

are only shown if at least three respondents have answered that question. Be aware that too few respondents can increase the statistical uncertainty significantly, and the percentage indications can fluctuate a lot if one respondent is added or removed.
3 Current job situation of Master’s Candidatus/Professional Bachelor’s graduates

This chapter describes the job situation of Master’s Candidatus/Professional Bachelor’s graduates in their current position. The chapter includes sections on whether the graduates are in work, self-employed, unemployed or in full-time education.

3.1 Employed Master’s Candidatus/Professional Bachelor’s graduates

Employed Masters Candidatus/Professional Bachelors covers graduates in work, self-employed, unemployed or in full-time education.

3.1.1 Q.1.1. What is your current job situation?

The figure for question Q.1.1. shows the Master’s Candidatus/Professional Bachelor’s graduates’ current job situation, where the response categories show if they are in work, self-employed, unemployed, in full-time education, or on a Ph.d programme.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.

<table>
<thead>
<tr>
<th>Job Situation</th>
<th>Number of replies</th>
<th>Comp.</th>
</tr>
</thead>
<tbody>
<tr>
<td>I am employed (including leave of absence, maternity leave, job with wage subsidies, part-time hiring...)</td>

<td>24</td>
</tr>
<tr>
<td>I am self-employed (including freelance)</td>
<td>0</td>
<td>-2</td>
</tr>
<tr>
<td>I am unemployed (including on maternity leave without being under contract of employment)</td>
<td>3</td>
<td>-4</td>
</tr>
<tr>
<td>I am in full-time education (e.g. Candidatus programme)</td>
<td>0</td>
<td>-1</td>
</tr>
<tr>
<td>I am on a Ph.D programme</td>
<td>3</td>
<td>-16</td>
</tr>
<tr>
<td>Other</td>
<td>1</td>
<td>-1</td>
</tr>
</tbody>
</table>

The actual number of respondents for each response category is shown to the right of the figure.

A green arrow shows that there are x percentage points more on Clinical Nutrition than on the entire faculty. A red arrow shows that there are x percentage points less on Clinical Nutrition than on the entire faculty.

Only one response category is possible.

3.1.2 Q.1.3. What are the conditions of employment in your current job?

The figure for question Q.1.3. shows the conditions of employment for the Masters Candidatus/Professional Bachelors in work, where the response categories show if they are hired on a fixed-term contract, hired on a project/temporary contract, hired as a substitute, or employed with wage subsidy.
3.1.3 Q.1.2. How many jobs have you had (since completing your studies), before you started in your current employment?

Figure Q.1.2. shows the number of jobs Master's Candidatus/Professional Bachelor's graduates in employment have had before starting their current job.

There is only one response category, given the fact that they have had zero, one, two, three, four or more jobs. The total number of respondents is shown to the right of the figure.

3.1.4 Q.1.8. Within which sector is your place of work?

The figure for question Q.1.8. shows which sectors the Masters Candidatus/Professional Bachelors are employed in. The response categories show if they are employed in the private sector, the state, a region or a non-governmental organisation/interest organisation.
The actual number of respondents for each response category is shown to the right of the figure. Only one response category is possible.
### 3.1.5 Q.1.9./Q.1.8. Which industry does your place of work belong to? by sector

The table for question Q.1.9. shows which industry the Masters Candidatus/Professional Bachelors are employed in. For each industry, the table shows the distribution of the Masters Candidatus/Professional Bachelors among the various sectors in question Q.1.8.

There is only one response category as they are either on an academic collective agreement or not. The total number of respondents is shown to the right of the figure.
3.1.8 Q.1.11. What is your monthly salary?
The figure for question Q.1.11. shows the Master’s Candidatus/Professional Bachelor’s monthly salary. The levels of salary are shown for graduates on a non-academic collective agreement, graduates on an academic collective agreement, Professional Bachelors as well as a total.

3.1.9 Q.1.16. Are you in charge of other employees?
Figure Q.1.16. shows the distribution of Masters Candidatus/Professional Bachelors that are/aren't in charge of other employees.

3.1.10 Q.1.16./Q.1.11. Are you in charge of other employees? by monthly salary
The figure for question Q.1.16. crossed with question Q.1.11. shows the distribution of Masters Candidatus/Professional Bachelors that are/aren't in charge of employees within each of the salary brackets. Results are only displayed for the relevant salary brackets.

The distribution is shown in percentages and sums up to 100 within each salary bracket.

The total number of respondents for each salary bracket is shown to the right of the figure.

Results are only displayed for the relevant salary brackets.

The distribution is shown in percentages and sums up to 100 within each salary bracket. The total number of respondents for each salary bracket is shown to the right of the figure.

### 3.1.11 Q.1.17./Q.1.11. How many employees are you in charge of? by monthly salary

The figure for question Q.1.17. shows how many employees the Masters Candidatus/Professional Bachelors are in charge of within each of the salary brackets. The response categories show if the number of employees they are in charge of is either 1-5, 6-10, 11-25, 26-50, 51-100 or more than 100 employees. The results are shown for each of the salary brackets within which the graduates are in charge of employees.

The distribution is shown in percentages and sums up to 100 within each salary bracket. The total number of respondents is shown to the right of the figure.
### 3.1.12 Q.1.18. Breakdown of your job functions by how much time the respondent spends on these job functions - part 1

The figure for question Q.1.18. shows which job functions the respondents spend time on as well as how much time they spend on the specific categories.

The figure shows an average on a scale from 1 to 4, where 1 corresponds to 'Not at all', 2 corresponds to 'Occasionally', 3 corresponds to 'Sometimes' and 4 corresponds to 'A lot of the time'. From this scale the average time consumption is shown for each specific bar.

The figure shows the percentage of Masters Candidatus/Professional Bachelors that have chosen the specific category. The categories do not sum to 100, as it was possible for the respondents to check more than one option.
3.2 Unemployed, including maternity leave without being under employment contract

This section describes the job situation for the Master’s Candidatus graduates who answered the introductory Q.1.1 with “unemployed”.

3.2.1 Q.1.32. After completing your studies, have you had one or more jobs (including leave of absence, maternity leave, job with wage subsidies, part-time employment, or similar)?

The figure for question Q.1.32. shows how many of the unemployed Masters Candidatus/Professional Bachelors have had one or several jobs since finishing their studies. They can choose between yes or no.

![Yes/No Distribution](image)

The distribution is shown as a percentage of each response category and sums up to 100 as it is only possible for the respondents to choose one response category. The total number of respondents for yes and no, respectively, is shown to the right of the figure.

3.2.2 Q.1.34. How long have you been unemployed (current period of unemployment)?

The figure for question Q.1.34. shows for how long the Masters Candidatus/Professional Bachelors have been unemployed in their current unemployment period, the response categories showing either less than 6 months, 7-12 months, and 12 months or more.

![Unemployment Duration](image)

The distribution is shown in percentages. The total number of respondents for each response category is shown to the right of the figure.

3.2.3 Q.1.35. Do you receive unemployment benefits or social assistance benefits in connection with your unemployed status?

The figure for question Q.1.35. shows the distribution among unemployed Masters Candidatus/Professional Bachelors that receive and do not receive unemployment benefit or social assistance benefits in connection with their unemployed status.
The distribution is shown as a percentage. The total number of respondents is shown to the right of the figure.

3.2.4 Q.1.34./Q.1.35 Do you receive unemployment benefits or social assistance benefits in connection with your unemployed status? by unemployment period

The figure for question Q.1.34./Q.1.35. shows the distribution of unemployed Masters Candidatus/Professional Bachelors who either receive or do not receive unemployment benefit/social assistance benefits, by unemployment periods. The distribution is shown in percentages and sums up to 100 within the specific periods of unemployment. The total number of respondents for each unemployment period is shown to the right of the figure.

3.2.5 Q.1.36. Why do you think you do not have a job at the moment?

The figure for question Q.1.36. shows in order of priority, why the Masters Candidatus/Professional Bachelors think they are unemployed at the moment.
I lack professional experience
There is great competition for the jobs I apply for
I am not good enough at writing applications or attending interviews
Pregnancy/maternity leave or a lack of childcare options
No jobs have been advertised within my area of academic expertise
I do not want to move geographically because of work
Other, please state
My education has not provided me with the sought-after skills
There have been no jobs that I have been interested in applying for

The figure shows what percentages of Masters Candidatus/Professional Bachelors have chosen the specific category. The categories do not sum up to 100, as more response categories are available for selection.

3.2.6 Q.1.42. How would you describe the correlation between your previous programme of study and your Ph.D?

The figure for question Q.1.42. shows how the Masters Candidatus/Professional Bachelors registered on a PhD programme assess the correlation between their previous programme of study and their Ph.D.

The distribution is shown as a percentage. The total number of respondents for each response category is shown to the right of the figure.
4 Correlation between Master’s Candidatus/Professional Bachelor’s education programmes and the job market

A main element in the educational programmes offered by the faculty is that they prepare the graduates as well as possible for the job market by giving them the skills that are sought after by employers. The graduate surveys of the University of Copenhagen can thus gather information on the graduates’ assessment of how much the educational programmes have prepared them for the job market. The question is whether the Master’s Candidatus/Professional Bachelor’s graduates experience that there is agreement between the skills they are expected to possess on the job market and the skills they have acquired during their education at the University of Copenhagen.

4.1 Academic correlation between studies and job
4.1.1 Q.1.12./Q.1.13. How would you describe the correlation between your area of study and your job?

The figure for question Q.1.12./Q.1.13. shows how the Masters Candidatus/Professional Bachelors assess the correlation between their education and their job.

The distribution is shown as a percentage. The total number of respondents is shown to the right of the figure.

4.2 The ability of the study programme to prepare the graduates for working life
4.2.1 Q.2.1. To what degree do you feel that your programme of study has adequately prepared you for your working life?

The figure for question Q.2.1. shows to what degree the Masters Candidatus/Professional Bachelors feel that their programme of study adequately has prepared them for their working life. The response categories show either to a high degree, to some degree, to a lesser degree or not at all.
The distribution is shown as a percentage. The total number of respondents for each degree is shown to the right of the figure.
4.2.2 Q.2.4. How do you think the University of Copenhagen could improve upon how it prepares graduates for the demands of the labour market?

The figure for question Q.2.4. shows in order of priority, what areas the Masters Candidatus/Professional Bachelors think the university could improve upon to prepare the graduates for the demands of the labour market.
More/better opportunities for work experience, project-oriented courses or project partnerships with private and public businesses/organisations
Solving tasks in collaboration with both private and public businesses/organisations
More/better study and career advice
Better guidance regarding the needs of both private and public businesses/organisations
More/better opportunities for study abroad
More practical assignments and courses (e.g. languages, supplementary tools...)
More guest lecturers and teachers from both private and public businesses/organisations
More business/company-based presentations at the university
A higher degree of interdisciplinary studies within the course programme
More choice of courses that are aimed directly at private as well as public companies/organisations
More methodology/supplementary courses
More actual case studies within the programme
Business-oriented teaching (e.g. basic business knowledge)
More/better career fairs at the university
Other
More theory within the course programme
The figure shows what percentage of the Masters Candidatus/Professional Bachelors that have chosen the specific category. The categories do not sum up to 100 as several categories are available for selection.
### 4.2.3 Q.2.2./Q.2.3. Correlation between acquired skills and skills sought after on the labour market

The figure shows the labour market demanded skills from question Q.2.3. out the x-axis and acquired skills from question Q.2.2. up the y-axis.

<table>
<thead>
<tr>
<th>High acquisition</th>
<th>Low demand</th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>

</tr>
</tbody>
</table>

The numbers on the bars for the specific skills in the figure shows the average in the degree the respondents have answered to have acquired the following skills through their education measured on a scale from 1 to 4, where 1 is 'Not at all', 2 is 'to a lesser degree', 3 is 'to some degree' and 4 is 'to a high degree'.

#### 4.2.3.1 Top 5 skills

Figure 1 for question Q.2.2. shows the 5 skills the Masters Candidatus/Professional Bachelors feel they have acquired to the highest degree through their programme of study and that they think the labour market to the highest degree demands. The responses for each skill are displayed with a bar.

- The ability to work independently: 3.5
- The ability to assimilate my new knowledge: 3.8
- The ability to reflect critically over complex problems: 3.6
- The ability to communicate in writing: 3.5
- Theoretical knowledge within my area of professional expertise: 3.8

#### 4.2.3.2 Bottom 5 skills

Figure 2 for question Q.2.2. shows the 5 skills the Masters Candidatus/Professional Bachelors feel they have acquired to the least degree through their programme of study and that they think the labour market to the highest degree demands. The responses for each skill are shown with a bar.
Convey expert knowledge using methods that retain and interest the target group

IT skills

The ability to collaborate with a variety of professional groups

General business understanding

The ability to manage complex working and development situations
5 Master’s Candidatus/Professional Bachelor’s graduates routes to their first job

This section deals with the Master’s Candidatus/Professional Bachelor’s graduates’ first job. There are several interesting questions in this regard, such as: How long did it take them to get a job? When did they start actively looking for jobs? What factors are relevant to getting a job as a recent graduate?

5.1 Master’s Candidatus/Professional Bachelor’s graduates first job

5.1.1 Q.3.1. How long time did you have to wait between graduating and obtaining your first job (incl. job with wage subsidies)?

The table for question Q.3.1. shows how long time the Masters Candidatus/Professional Bachelors had to wait to obtain their first job.

<table>
<thead>
<tr>
<th>Time Interval</th>
<th>Kandidat</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>After passing your Master’s (Candidatus) thesis/final project or exam</td>
<td>21%</td>
</tr>
<tr>
<td>Number of replies</td>
<td>28</td>
</tr>
</tbody>
</table>

The table shows the percentage share of each group.
5.1.3 Q.3.1. How long time did you have to wait between graduating and obtaining your first job (incl. job with wage subsidies)? by Q.3.19 When did you start actively looking for a job?

The figure for question Q.3.1. distributed on Q.3.19. shows the average scores on Q.3.1. for the Masters Candidatus/Professional Bachelors, distributed on response categories of when they actively started looking for a job.

The average is calculated on a scale from 1 to 5 where
- 1 corresponds to 'I got the job before completing my studies',
- 2 corresponds to '0 - 3 months',
- 3 corresponds to '4 – 6 months',
- 4 corresponds to '7 - 12 months' and
- 5 corresponds to 'More than 12 months'.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.
5.1.4 Q.3.2. What do you believe was the primary reason that you got your first job (including job with wage subsidies)?

The figure for question Q.3.2. shows in order of priority, what the Masters Candidatus/Professional Bachelors believe were the primary reason that they got their first job.
I possessed the right personal skills
I possessed the required professional qualifications
I possessed the required academic qualifications (methodology, overview, analytical sense, etc.)
I had the right contacts
I made a good impression at the interview
I wrote a good application
I had the correct experience from an internship
I wrote my thesis/final paper within this professional field
I was willing to move to get the job
I had the correct experience from work experience or collaborative project, for example
Other
I had the correct experience from voluntary work/working with associations or clubs
I had good grades
I had experience from residence/study abroad

The figure shows the percentage of the Masters Candidatus/Professional Bachelors choosing each specific category.

The categories do not sum to 100 as more categories were available for selection.
5.2 The significance of student jobs, internships, study abroad, etc. for the first job

5.2.1 Q.3.3. Did you have a student job alongside your programme of studies?

The table for question Q.3.3. shows the percentage of Masters Candidatus/Professional Bachelors having a student job alongside their programme of study.

<table>
<thead>
<tr>
<th>Kandidat</th>
<th></th>
</tr>

</tbody>
</table>

The number divided between the two response categories of yes and no is shown in percentage.
5.2.3 Q.3.4. How significant was your student job(s)?

The figure for question Q.3.4. shows in order of priority how significant the Masters Candidatus/Professional Bachelors feel their student job was.

The figure shows the percentage of Masters Candidatus/Professional Bachelors who responded 'To some degree' or 'To a high degree' to the specific questions.
5.3 Voluntary internship or project in private or public organisations

5.3.1 Q.3.6. Did you undertake any non-obligatory work experience, project-oriented coursework or collaborative projects with private or public companies/organisations over the course of your studies?

The table for question Q.3.6. shows how great a percentage of the Masters Candidatus/Professional Bachelors that have obtained non-obligatory work experience, project-oriented coursework or collaborative projects with private or public companies/organisations over the course of their studies.

<table>
<thead>
<tr>

</table>

The number divided between the two response categories of yes and no is shown in percentage.
I used the skills learned on the rest of my study programme in my study period abroad.

The study period abroad gave me a number of skills that I did not get from the rest of my studies.

The study period abroad meant that I was better able to put my skills into words in my subsequent job search.

The study period abroad was relevant to my future working life.

The study period abroad provided me with knowledge about the expectations and skills requirements.

I used the network I formed on my study period abroad in my subsequent job search.

I chose the study period abroad in order to improve my job and educational opportunities.

The study period abroad provided me with inspiration to look for jobs that I would not otherwise have been able to.

The experiences from the study period abroad have had an influence on the rest of my course composition.

The figure shows the percentage of Masters Candidatus/Professional Bachelors answering 'To some degree' or 'To a high degree' to the specific questions.
5.5 Activities during the programme of study such as student politics

5.5.1 Q.3.12. Have you taken part in voluntary activities such as student politics, alumni associations or for example acted as arranger of social activities during your programme of study?

The table for question Q.3.12. shows the percentage of Masters Candidatus/Professional Bachelors having participated in voluntary activities such as student politics, alumni associations or for example acted as arranger of social activities during their programme of study.

<table>
<thead>
<tr>
<th>Kandidat</th>

</tbody>
</table>

The number divided between the two response categories of yes and no is shown in percentage.
5.5.3 Q.3.13. What impact has your voluntary work had on your programme of study?

The figure for question Q.3.13. shows in order of priority for the Masters Candidatus/Professional Bachelors what significance the voluntary activities such as student politics, alumni associations or for example arranger of social activities during their programme of study have had.

The voluntary activity gave me a number of skills that I did not get from my studies

The voluntary activity meant that I was better able to put my skills into words in my subsequent job search

I used the skills learned on my study programme in the voluntary activity

I chose the voluntary activity in order to improve my job and educational opportunities

The voluntary activity was relevant to my future working life

The voluntary activity provided me with knowledge about the expectations and skills requirements...

The experiences from the voluntary activity have had an influence on my choice of course composition

The voluntary activity provided me with inspiration to look for jobs that I would not otherwise have been

I used the network I formed in my voluntary activity in my subsequent job search

The figure shows the percentage of Masters Candidatus/Professional Bachelors that have answered ‘To some degree’ or ‘To a high degree’ to the specific questions.
6 Master's Candidatus/Professional bachelor's assessment of the program compared with their own expectations

6.1 Q.3.15. To what degree does your current occupation live up to the career expectations that you had whilst studying?

The figure for question Q.3.15. shows to what degree Masters’ Candidatus/Professional Bachelors' current occupation live up to the career expectations that they had whilst studying.

<table>
<thead>
<tr>

10 Appendix 3: List of work places and job titles

Job title
- Akademisk medarbejder
- Bookingassistent
- Business Operations and Support Project Manager
- Centerchef, Ældrecenter
- Ernæringskonsulent
- Forskningsassistent
- Forskningsmedarbejder
- Forskningsmedarbejder
- Klinisk Ernæringsfysiolog
- Klinisk diætist
- Klinisk diætist
- Klinisk diætist
- Klinisk ernæringfysiolog
- Kostkonsulent
- Ledende klinisk diætist
- PhD studerende
- Phd
- Produktspecialist
- Produktspecialist
- Projektleder, Forskning
- Rådgiver/klinisk ernæringsfysiolog
- Underviser
- cand scient klinisk ernæring

Place of work
- Aalborg Universitetshospital
- Aarhus universitet
- Boehringer Ingelheim
- Brønderslev Kommune
- Diabetesforeningen
- Diætisthuset
- Falck Healthcare
- Fødevarestyrelsen
- Gentofte Kommune
- Haukeland universitetssykehus, Bergen
