1 Introduction

The University of Copenhagen conducts graduate surveys for all professional Bachelor's, Academic Bachelor's, Master's Candidatus and Master's degrees, as well as Diploma and Academy Profession (AP) programmes according to a shared concept of data collection developed across the faculties.

The graduate surveys gather information about what the graduates are doing after their graduation, and how conditions during their studies have been influential in their later employment situation. Among other things, the graduates assess to what degree the skills achieved from their education have been relevant and sought after in the jobs they get after completing their education. Moreover, the graduates evaluate whether their education has been structured to ensure that the study programme can be completed without delay, and whether there is anything in the programme that could be improved to better prepare them for the job market.

Education Services at the University of Copenhagen is responsible for the graduate survey itself. Rambøll handles the acquisition of data and prepares a report based on the data from the questionnaires. The reporting of the graduate survey takes place on three levels: university, faculty and educational programme. This report is for Religious Studies.

Compared to previous reports in connection with the institution accreditation, the 2015 reports also include small, built-in analyses by cross-referencing information. The background for this is the fact that the results of the questionnaire had been adapted and reworked by the individual institutes. Therefore, Education Services has in collaboration with Rambøll worked on improving the report template so that the complete report can, as far as possible, cover the common needs that the institutions have.

The institution accreditation comprises an assessment of many educational programmes, all of which receive a report like this one. Therefore, it has been necessary to standardise the text so that it can be included generically in the reports for all types of educational programme. Throughout the report, there are guidance and notes on the individual sections and graphs. All faculties have received the complete data material for the faculty's educational programmes, which are included in this graduate survey. Thus, this report provides an overview of the survey's results, which can be further investigated by looking into the data.

2 Data

2.1 The graduate survey

After the completion of their education programme, all graduates from the University of Copenhagen were invited to take part in the graduate survey. The University of Copenhagen offers the following types of education programmes:

- Academic Bachelor's degree
- Professional Bachelor's degree
- Master's Candidatus degree
- Master's degree
- Diploma programmes
- Academy Profession (AP) programmes (from 2016)

From 2015 all the faculties at the University of Copenhagen will use the same questionnaire for the collection of data in connection with graduate surveys in order to provide the opportunity to compare the results across educational programmes and faculties.

2.2 Reporting

This report is based on the graduate survey questionnaire data collected from graduates during the period 27 October to 27 November 2015. The purpose of the report is to provide a summary of the data. The table shows a summary of the data from the graduate study with response rates, etc. from Religious Studies graduates.

2.2.1 Table: Summary of collected data

	Bachelor	Total
Invited	99	99
Completed	52%	52%
Partially completed	4%	4%
Total	56%	56%
Did not wish to participate	2%	2%
Did not reply	42%	42%

Appendix 1 shows a summary of the questions from the questionnaire used in this report.

2.3 Background data from the study administrative system STADS

The individual graduates in the survey have been linked to the variables from the study administrative system STADS described in Appendix 2. The Table shows how representative the data is for Religious Studies when the entire graduates who were asked to reply to the questionnaire were compared to the graduates who chose to participate by responding to the questionnaire based on the background variables.

Among the background variables, the following variables from STADS are considered significant when it comes to studying how representative the graduate survey is:

- Gender
- Average age at study start/average age at graduation
- Completion time of Bachelor's and Master's Candidatus studies
- Grades for thesis/Bachelor's paper
- Graduates who are foreign citizens
- Quota 1/2

2.3.1 Table: Facts about the respondents, broken down into graduate status

	Bachelor total	Bachelor participated
Number	99	55
Percentage women	74%	76%
Foreign citizens	0%	0%
Average age upon graduation	26.7	27.3
- youngest	21.8	22.8
- eldest	54.9	54.9
Completion time (average years)	3.9	4
- shortest completion time	1.8	1.8
- longest completion time	14.5	14.5
Quota 2 at BA-entrance	10%	9%
Years from qualifying exam to commencement of study (average)	3.1	3.6
- shortest time from qualifying exam to commencement of study (average)	0	0
- longest time from qualifying exam to commencement of study (average)	33	33
Bachelor's programme as first priority	93%	91%
Grading of Bachelor's paper/Master's thesis (average)	9.2	9.3
- lowest grade	2	2
- highest grade	12	12

For future analyses of data from graduate surveys it can be relevant to examine, aside from being representative, whether the data can be biased. Respondents could, for example, be biased in the assessment of their education, if they are unsuccessful on the job market.

2.4 Reading guide

In order to make the report more readable and to live up to various ethical principles, this section explains in brief how the data is presented in this report. The report has been made for many educational programmes; in addition, there are joint reports on faculty level and for the University of Copenhagen as a whole. As described in the introduction, it has thus been necessary to work with a standardised report structure, partly on financial grounds, both in terms of the content of the tables, graphs and the text itself. The following text is thus intended to help the reader in reading the report.

For the Religious Studies educational programme, a report template has been used that comprises Professional Bachelor's degrees, Academic Bachelor's degrees and Master's Candidatus degrees. For the University of Copenhagen as a whole, it makes sense to look at Master's Candidatus and Professional Bachelor's degrees in the same section, as these are programmes where the graduates complete their education at the university. The reader might though have a report for a specific education at hand that does not comprise a Professional Bachelor's degree programme. At time of writing, the University of Copenhagen offers Professional Bachelor's degrees in dentistry under the Faculty of Health and Medical Sciences and the Bachelor's degree in Forest and Landscape Engineering at SCIENCE. The reader is therefore asked to consider that it has been necessary to standardise the text so that it also reads Professional Bachelor's degree, even though this may not be relevant to the education written in the actual report. The format of the report is also untraditional in the way that the tables and graphs are not numbered consecutively throughout the report. On the contrary, it was decided to let the numbering of the questions in the tables and graphs refer directly to the numbering of the questions in the questionnaire. The entire questionnaire is designed around the introductory question about the current job situation, which provides a good overview of the respondents included in this report. Depending on which answer the graduates give for their job status in Q.1.1 or Q.1.7, there will be a round of questions that the graduates have answered. A complete summary of the answers to the questions is shown in the following table:

2.4.1 Q.1.1./Q.1.7. What is your current job situation?

	Bachelor
I am employed (including leave of absence, maternity leave, job with wage subsidies, part-time hirings, etc.)	13% (7)
I am self-employed (including freelance)	2% (1)
I am unemployed (including on maternity leave without being under contract of employment)	7% (4)
I am in full-time education (e.g. Candidatus programme)	72% (39)
I am on a Ph.D programme	0% (0)
Other	6% (3)
Number of replies	54

Figures in this table can be included in the text in the individual sections. If there is a figure for candidates in this table, they could also be included in the following section on candidates, for example. The table here provides a complete summary of the types of figures included in this report.

For Q.1.1 in the table, the respondents have just one possible answer. If a respondent has a part-time job with supplementary benefit, the respondent should select the category, "I am in work". In some cases, the individual questions in the questionnaire have just one possible answer; in other cases, multiple answers are permitted. With a single answer option, a percentage breakdown of the respondents according to answer will add up to 100 per cent as in a relative breakdown, and otherwise the sum of the percentages will be higher than 100 per cent. The graphs in the report thus provide a clear indication of whether there is a single answer option or multiple answers.

In general, the total "n" for the graphs and tables, as well as what it covers, is made clear in the text. In some situations, "n" is the total number of respondents in the graduate study while in other situations, "n" can be conditional on the respondents who are in work, for example. Based on the graph it is then possible to estimate how many respondents there are in the individual categories.

The graduate survey invites all graduates in a given population to answer the questionnaire, where the response rate can be small. The collected data does not therefore represent a complete survey, but rather a random sample. To ensure anonymity, when the number of respondents is small, the results on the following questions:

What is your monthly salary?

Do you supplement the income earned from your primary occupation?

Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status?

Why do you think you do not have a job at the moment?

are only shown if at least three respondents have answered that question. Be aware that too few respondents can increase the statistical uncertainty significantly, and the percentage indications can fluctuate a lot if one respondent is added or removed.

3 Bachelor's/Professional Bachelor's assessment of the study programme

3.1 The level of teaching in relation to the entry requirements

3.1.1 Q.4.1. To what degree is it your assessment that the teaching on your Bachelor/professional Bachelor programme was organised at a suitable level in relation to the entry requirements?

The figure for question Q.4.1. shows to what degree the Bachelors/Professional Bachelors assess that the teaching on their programme of study was organised at a suitable level in relation to the entry requirements.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

3.1.2 Q.4.7. To what degree do you feel that all the elements of the Bachelor/professional Bachelor programme have contributed to the collective goals of the teaching offer?

The figure for question Q.4.7. shows to what degree the Bachelors/Professional Bachelors assess that the elements of the Bachelor/ professional Bachelor programme have contributed to the collective goals of the teaching.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

3.2 Specifics about the bachelor programme

The figure for questions Q.4.2., Q.4.3., Q.4.6., Q.4.4., Q.4.5. shows how the Bachelors/Professional Bachelors assess different conditions in their programme of study.

The distribution is shown as a percentage.

The total number of respondents for each question is shown to the right of the figure.

To what degree...

3.3 The graduates assessment of the opportunities for study abroad, internship etc. without extensions

3.3.1 Q.4.8. To what degree was your Bachelor/professional Bachelor programme organised so that you had the opportunities for (see following) without having to extend the length of your studies?

The figure for question Q.4.8. shows how the Bachelors/Professional Bachelors assess that their programme of study was organized so that they had the possibility of studying abroad, specialisation, choosing elective subjects, getting work experience, receiving guidance from teachers, and having collaboration with businesses without having to extend the length of their studies.

The distribution is shown as a percentage.

The total number of respondents for each question is shown to the right of the figure.

3.4 The teachers' professional and educational expertise

The figure for question Q.4.9. shows how the Bachelors/Professional Bachelors assess the teacher's professional and educational expertise.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

3.4.1 Q.4.9. Educational expertise

3.4.2 Q.4.9. Professional expertise

4 Bachelors' current job situation

This chapter describes the job situation of Bachelor's graduates in their current position.

4.1 Employed bachelors

Employed bachelors, covers graduates in work, self-employed, unemployed or in full-time education.

4.1.1 Q.1.12. How would you describe the correlation between your area of study and your job?

The figure for question Q.1.12. shows how the Bachelors assess the correlation between their area of study and their job.

The distribution is shown as a percentage.

The total number of respondents is shown to the right of the figure.

4.1.2 Q.1.8. Within which sector is your place of work?

The figure for question Q.1.8. shows within what sectors the Bachelors are employed where the response categories show if they are employed in the private sector, in the state, in a region, in a municipality, or in a non-governmental organisation/interest organisation.

The actual number of respondents for each response category is shown to the right of the figure.

Only one response category is possible.

4.1.3 Q.1.8./Q.1.9. Which industry does your place of work belong to? by sector

The table for question Q.1.9. shows what industry the Bachelors are employed in. For each industry, the table additionally shows how the Bachelors are distributed on the specific sectors from question Q.1.8.

To the right of the table is a total-column with the total percentage of respondents within the specific industries.

	Private	State	Region	Municipality	Non-governmental organisation/interest organisation	Total %	Total n
Agriculture, hunting, forestry and fishing (e.g. plant nursery)	0%	0%	0%	0%	0%	0%	0
Raw material extraction (e.g. extraction of oil and gas)	0%	0%	0%	0%	0%	0%	0
Manufacturing firm (e.g. industry, food processing)	0%	0%	0%	0%	0%	0%	0
The supply of electricity, gas or heating	0%	0%	0%	0%	0%	0%	0
Water supply, sewerage, waste management, etc.	0%	0%	0%	0%	0%	0%	0
Construction company	0%	0%	0%	0%	0%	0%	0
Wholesale and retail trade	0%	0%	0%	0%	0%	0%	0
Freight transport and cargo handling (e.g. mail)	0%	0%	0%	0%	0%	0%	0
Lodging and restaurant business	100%	0%	0%	0%	0%	40%	2
Information and communication (e.g. publishing, film production, radio + TV)	0%	0%	0%	0%	0%	0%	0
Financial institute or financial company, etc. (e.g. insurance company, pension fund)	0%	0%	0%	0%	0%	0%	0
Real estate (leasing administrator, property agent)	0%	0%	0%	0%	0%	0%	0
Liberal profession, scientific and technical services (e.g. research assistant at a university, legal advice, complaints agency, town planning)	0%	0%	0%	0%	0%	0%	0
Public administration and defence; social security (e.g. public administration and social sector)	0%	0%	0%	50%	0%	20%	1
Teaching (e.g. upper secondary schools and adult education)	0%	0%	0%	0%	0%	0%	0
Health and social services (e.g. hospitals and drug or alcohol counselling)	0%	0%	0%	50%	0%	20%	1
Culture, entertainments and sport (e.g. theatre, libraries and museums)	0%	100%	0%	0%	0%	20%	1
Other services (e.g. business organisations and consumer organisations)	0%	0%	0%	0%	0%	0%	0
Extraterritorial organisations and bodies (e.g. FN and EU)	0%	0%	0%	0%	0%	0%	0
Number of replies	2	1	0	2	0	5	5

4.1.4 Q.1.8./Q.1.10. Where is your place of work located geographically? by sector

The table for question Q.1.10. shows the geographical location for the Bachelors' place of work. For each geographical location, the table additionally shows how the Bachelors are distributed on the specific sectors from question Q.1.8.

On the right in the table is a total column with the total percentage of respondents for each geographical location.

	Private	State	Region	Municipality	Non-governmental organisation/interest organisation	Total %	Total n
Capital Region of Denmark	100%	100%	0%	100%	0%	100%	6
Region Zealand	0%	0%	0%	0%	0%	0%	0
Region of Southern Denmark	0%	0%	0%	0%	0%	0%	0
Central Denmark Region	0%	0%	0%	0%	0%	0%	0
North Denmark Region	0%	0%	0%	0%	0%	0%	0
All of Denmark	0%	0%	0%	0%	0%	0%	0
Nordic region (incl. Faroe Islands and Greenland)	0%	0%	0%	0%	0%	0%	0
Europe (not Nordic region)	0%	0%	0%	0%	0%	0%	0
North America	0%	0%	0%	0%	0%	0%	0
South America	0%	0%	0%	0%	0%	0%	0
Asia	0%	0%	0%	0%	0%	0%	0
Africa	0%	0%	0%	0%	0%	0%	0
Australia/Oceania	0%	0%	0%	0%	0%	0%	0
Number of replies	2	1	0	3	0	6	6

4.2 Self-employed (including freelance)

This section describes the job situation for the Bachelor's graduates who answered that they have chosen to become self-employed or work freelance in the introductory question Q.1.1.1.

100% started business alone, while 0% started business in collaboration with one or more partners.

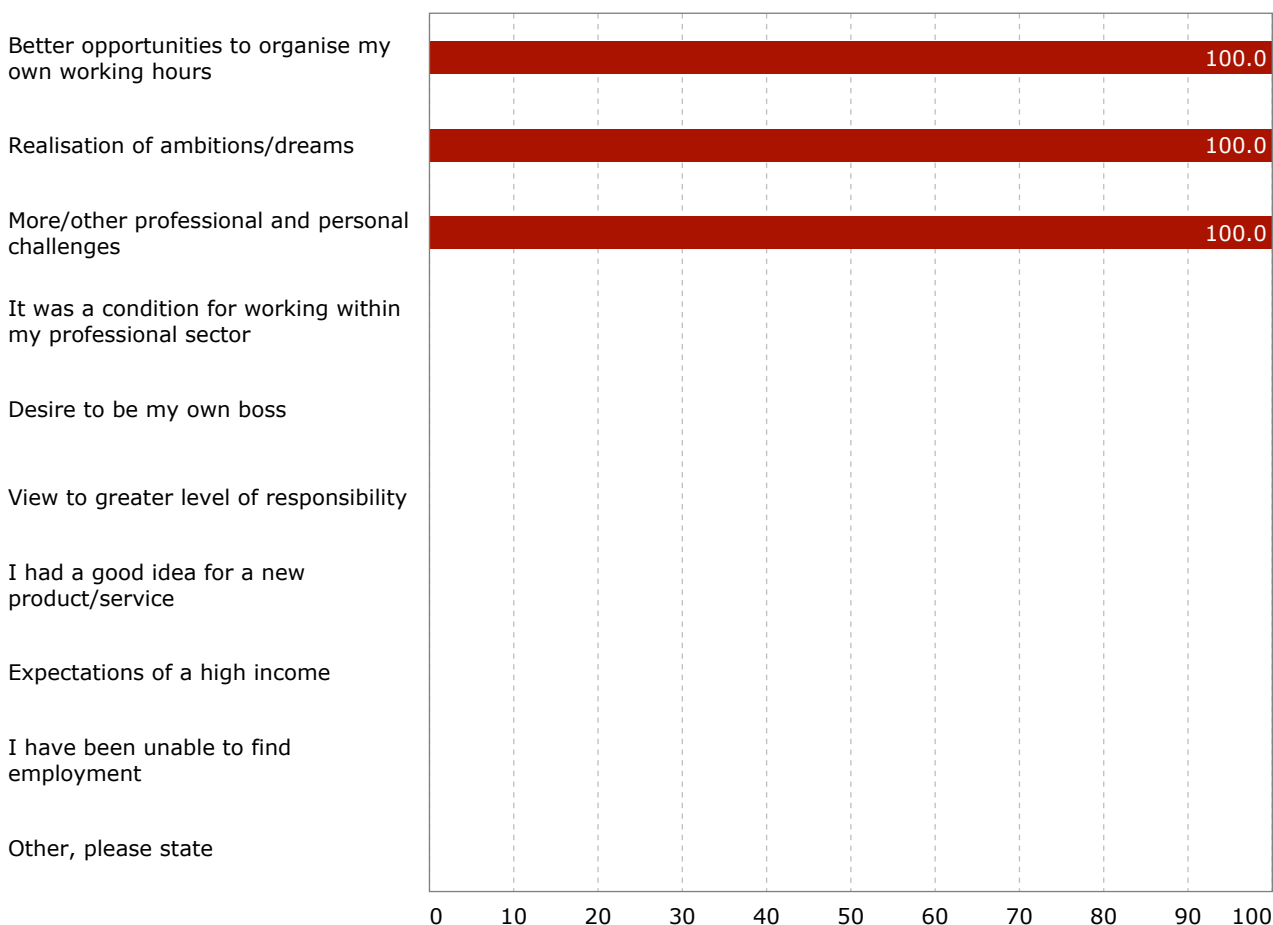

0 graduates have received financial support or advice to start up their business, corresponding to 0% of the self-employed graduates.

4.2.1 Q.1.23. What made you decide to become self-employed/freelance?

The figure for question Q.1.23. shows in order of priority why the Bachelors chose to start up as self-employed/freelance.

The figure shows the percentage of the Bachelors that have chosen the specific category.

The categories do not sum up to 100 as more categories were available for selection.

4.2.2 Q.1.26. How would you describe the correlation between your studies and your own business?

The figure for question Q.1.26. shows how the Bachelors assess the correlation between their studies and their business.

It is only possible for them to choose one of the categories.

The distribution is shown in percentages and sums up to 100.

The total number of respondents for each response category is shown to the right of the figure.

4.2.3 Q.1.28. How did you get the idea for your business?

The figure for question Q.1.28. shows how the Bachelors got the idea for their business. More options were available.

The figure shows the percentage of the Bachelors that have chosen the specific category. The categories do not sum up to 100, as more categories were available for selection.

The total number of respondents for each response category is shown to the right of the figure.

4.3 Unemployed, including maternity leave without being under employment contract

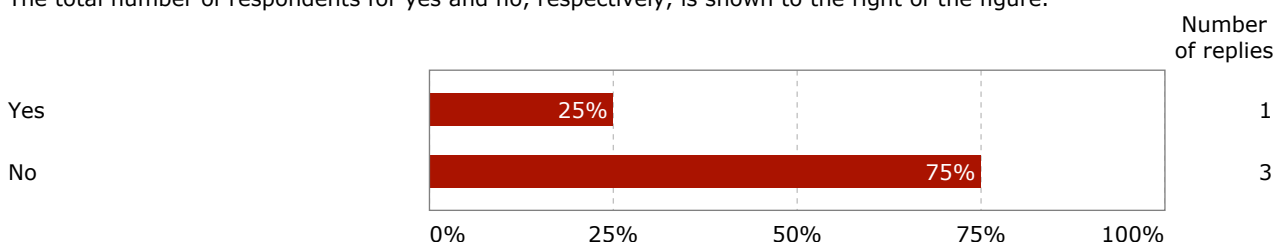

This section describes the job situation for the Bachelor's graduates who answered the introductory Q.1.1 with "unemployed".

4.3.1 Q.1.32. After completing your studies, have you had one or more job (including leave of absence, maternity leave, job with wage subsidies, part-time employment, or similar)?

The figure for question Q.1.32. shows how many of the unemployed Bachelors have had one or several jobs since finishing their studies. They can choose between yes or no.

The distribution is shown as a percentage of each response category and sums up to 100 as it is only possible for the respondents to choose one response category.

The total number of respondents for yes and no, respectively, is shown to the right of the figure.

4.3.2 Q.1.34. How long have you been unemployed (current period of unemployment)?

The figure for question Q.1.34. shows for how long the Bachelors have been unemployed in their current unemployment period, the response categories showing either less than 6 months, 7-12 months, and 12 months or more.

The distribution is shown as a percentage.

The total number of respondents for each response category is shown to the right of the figure.

4.3.3 Q.1.35 Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status?

The figure for question Q.1.35. shows the distribution among unemployed Bachelors that receive and do not receive unemployment benefit or social assistance benefits in connection with their unemployed status.

The distribution is shown as a percentage.

The total number of respondents is shown to the right of the figure.

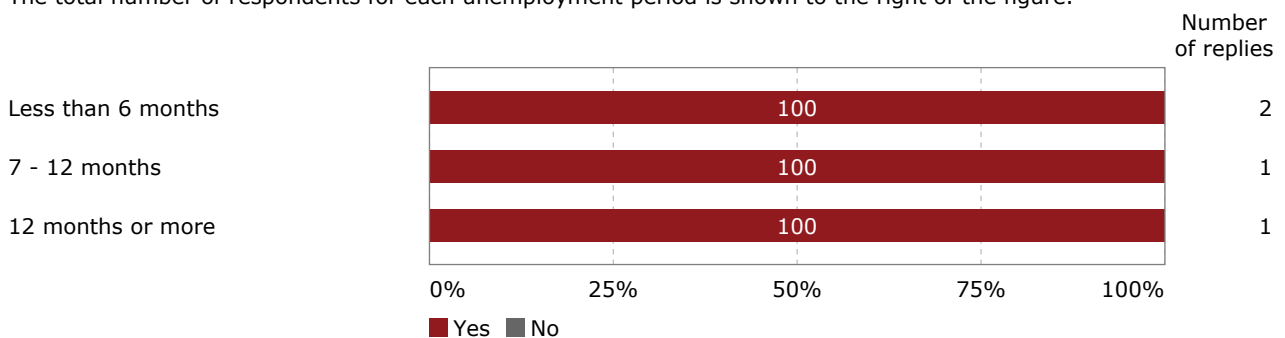

4.3.4 Q.1.34./Q.1.35. Do you receive unemployment benefit or social assistance benefits in connection with your unemployed status? by unemployment period

The figure for question Q.1.34./Q.1.35. shows the distribution of unemployed Bachelors who either receive or do not receive unemployment benefit/social assistance benefits, by unemployment periods.

The distribution is shown in percentages and sums up to 100 within the specific periods of unemployment.

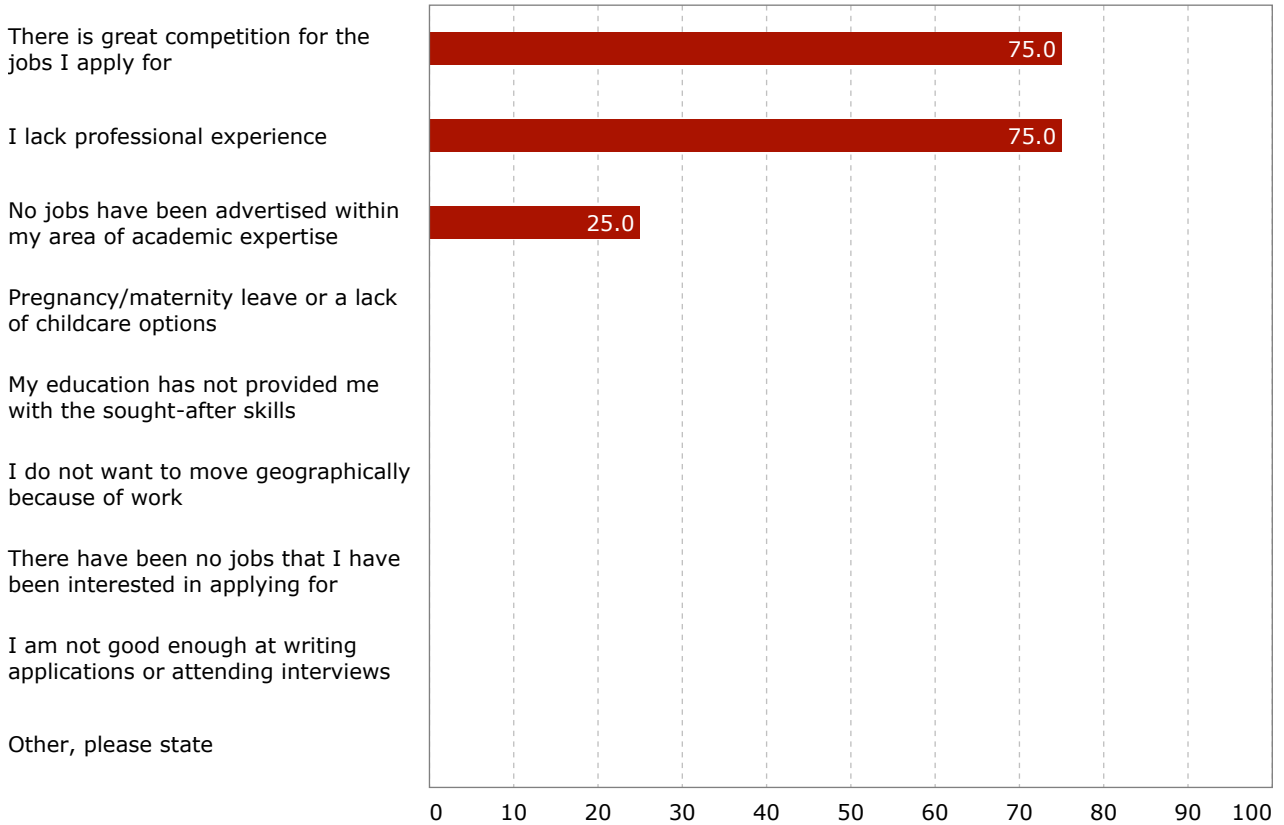

The total number of respondents for each unemployment period is shown to the right of the figure.

4.3.5 Q.1.36. Why do you think you do not have a job at the moment?

The figure for question Q.1.36. shows in order of priority, why the Bachelors think they are unemployed at the moment.

The figure shows the percentage of Bachelors that has chosen the specific category. The categories do not sum up to 100, as more response categories are available for selection.

4.4 Full-time education

This section describes the job situation for the Bachelor's graduates who answered introductory Q.1.1 by saying they had begun a full-time programme of education after graduation.

This can include several types of full-time education, depending on which actual course programme the report concerns. If they have graduated from a Bachelor's degree programme, there will be many who continue their studies at Master's Candidatus degree level. For Master's Candidatus graduates, there will be some who will continue on a PhD programme or teacher training.

4.4.1 Q.1.39./Q.1.40. What education institution are you registered with?

The table for question Q.1.39./Q.1.40. shows what education institutions the Bachelors in a full-time education are registered with.

The table shows the percentage within each specific education.

The total number of respondents for each education is shown in the bottom row.

	ph.d.	Master's (Candidatus) programme	(Academic) Bachelor's degree	Professional bachelor degree	Other programme of study, please state	Other programme of study, please state	Total %	Total n

7 Appendix 3: List of work places and job titles

Job title

- Bestyrer
- Fuldmægtig
- PR & Marketingschef
- Pædagogmedhjælper

Place of work

- Københavns Kommune
- Mesteren og Lærlingen
- Vuggestue

8 Appendix 4: List of Bachelors' examples of elements of the study programme that did not contribute to the collective goals of the teaching offer

- Der kunne godt have været gruppearbejde undervejs.
- For få undervisningstimer fx
- Ja, først og fremmest skal vi jo være enige i, hvad målet er...
- Jeg havde meget få undervisningstimer. Det synes jeg ikke fremmer læring. Jeg skal være underviser i gymnasieskolen, og jeg mener bestemt, at mere undervisning ville have bidraget betydeligt til at ruste mig bedre dertil. Generelt er undervisning i min optik vigtig for læring som supplement til den store læsebyrde.
- Jeg havde ved endt uddannelse ikke nogen klar idé om hvad fagets kerne eller metode var. Min uddannelse bar af og til præg af mere at være præget af et emne end en metode, og det har gjort det svært at sætte fingeren på hvad jeg rent faktisk har lært. Et større fokus på metode ville have været godt.
- Jeg mener, at langt de fleste kurser, eksminer, etc. virkede som de skulle. Jeg havde dog en oplevelse med en underviser, som havde en meget selektiv tilgang til et af vores kurser. Hun varetog sine egne interesser, så vi ikke kom omkring de emner, vi skulle, men kun fik kendskab til hendes favoritemne. Det var ikke så heldigt.
- Mener ikke sociologidelen var stærk nok medisk
- Religionsfagene på SDU er løbende forsimplet til blot at omhandle et minimalt aspekt af den store grad af faglighed, der udgør dem. Heldigvis kan man skifte til SDU, hvor en stor grad af professionel stolthed står mål til den usaglige selvfedme, der hersker på ToRS.
- Religionsinformatik
- Teori og metode var placeret så sent i uddannelsens forløb at faget på mange måder virkede redundant. Således fremstod faget blot som et element der skulle overstås, snarere end et fag hvor der var central læring at opnå.
- Videnskabsteori var dårligt tilrettelagt og skulle rykkes frem til 1. eller 2. semester. Nyere og global kristendom fungerede ikke i sin daværende form. Mangler redskabsfag, fx formidlingsfag. Vi kommer ingen vegne på eksperter i religion, hvis ikke vi kan formidle vores viden. Stor fejl og derfor jeg rykkede til RUC.
- Visse elementer blev underprioriteret og visse andre virkede overflødige eller i hvert fald svære at relatere til læringsmålene/-udbyttet for uddannelsen
